1H26 Earnings Release

Cairo, Egypt | 04 August 2026

(Cairo, Egypt) — Juhayna Food Industries (JUFO.CA on the Egyptian Exchange), a leader in the Egyptian packaged dairy, yogurt and juice markets, announced its audited consolidated results for 2Q26. The company achieved record-high net revenues of EGP 9.1bn in 2Q26, driven by exceptional local sales and robust exports of finished goods — marking a 23% YoY increase from EGP 7.3bn in 2Q25. For 1H26, net revenues reached EGP 17.7bn, up 25% YoY from EGP 14.1bn in 1H25. This strong performance was fueled by double-digit volume growth across the fermented and juice segments, supported by single-digit price adjustments and record-high export sales of finished goods.

In 2Q26, Juhayna achieved a gross profit of EGP 2.2bn, maintaining a healthy margin of 23.8%. For 1H26, gross profit stood at EGP 4.3bn with a solid margin of 24.5%. Throughout the period, Juhayna continued to deliver robust performance across its core segments and significantly expanded finished product exports, helping offset seasonal volatility and reinforcing its global brand positioning. It is worth noting that gross profit margins experienced a slight decrease, mainly due to higher cost of goods sold resulting from the ongoing geopolitical and macroeconomic challenges, including elevated input and logistics costs.

The selling, general, and administrative (SG&A) margin increased by 0.1% YoY in 2Q26, reaching 11.5%, and increased by 0.3% YoY in 1H26 reaching 11.4%. This reflects the company's operational expansion and proactive marketing strategy, with the continued growth of the Turkish Labneh range through the launch of two new flavor variants, as well as high-profile seasonal marketing campaigns that strengthened brand visibility and consumer engagement. These increases are in line with Juhayna's strategy to invest in brand equity and market share. It is important to clarify that the comparative figures for the first half of 2025 do not include the impact of the merger completed in February 2025.

EBITDA for 2Q26 reached EGP 1.3bn with a margin of 14.3%, compared to EGP 1.1bn in 2Q25 with a margin of 14.6%. For 1H26, EBITDA recorded EGP 2.7bn with a margin of 15.1%. Juhayna's diversified product portfolio and strong operational performance contributed to maintaining healthy EBITDA levels, underscoring the Company's resilience and disciplined cost management. It is important to note that the comparative figures for the first half of 2025 do not include the impact of the merger, which was completed in February 2025.

1H26 Earnings Release

Cairo, Egypt | 04 August 2026

Net Profit, Margin (EGP mn, %)

In terms of net profit, Juhayna delivered EGP 713mn in 2Q26 with a margin of 7.9%, while 1H26 closed at EGP 1.4bn with a margin of 7.8%. This strong performance was driven by solid growth across the Company's core business segments, a significant increase in demand for chilled and juice products during the summer season, and the continued growth in third-party distribution generated by Juhayna's commercial distribution arm. In addition, the Company recognized foreign exchange gains of EGP 66mn during the first half of the year. Profitability in 1H26 exceeded the one reported in 1H25 despite a significant increase in finance costs, which reached approximately EGP 573mn. Sales volumes increased, supported by continued focus on core products, higher exports of finished goods, and the introduction of new products. It is worth noting that the first half of 2025 comparative figures do not reflect the impact of the merger completed in February 2025.

Export Sales, Growth (EGP mn, %)

The company's export sales reached EGP 787mn in 2Q26 and EGP 1.2bn in 1H26. In USD terms, exports stood at USD 15.1mn in 2Q26 and USD 23.8mn in 1H26. While 1H26 export revenues reflect a decline versus the prior year period — largely attributable to lower concentrate volumes and pricing — finished product exports continued to grow, with 2Q26 USD revenues rising 14% year-on-year, demonstrating the ongoing shift in our export mix. This shift helped cushion the impact of lower concentrate revenues and underscores the company's commitment to building a more diversified and resilient export base. Looking ahead, increasing finished product volumes are expected to further mitigate short-term volatility and enhance Juhayna's presence across international markets.

Export Sales, Growth (USD mn, %)

Net debt increased from EGP 6.0bn at the end of FY2025 to EGP 7.2bn as of 1H26, representing a 21% increase. This was primarily driven by higher working capital requirements and the strategic execution of Juhayna's capital expenditure program. The increase reflects the proactive utilization of bank financing to support the Company's growth initiatives while maintaining a strong financial position. Despite the increase in net debt, Juhayna continues to deliver healthy profitability margins and follows a prudent approach to financial leverage, underscoring the strength of its financial fundamentals. It is worth highlighting that Juhayna increased its inventory during 1H26 by 40% as a precautionary measure due to geopolitical tensions and supply chain disruptions. During the first half of 2026, the Company invested EGP 1.3bn in capital expenditures to further strengthen its capabilities across agriculture, manufacturing, and distribution.

Net Debt, Inventory (EGP mn, %)

Our governance framework, disciplined execution, and experienced management team have enabled Juhayna to consistently deliver resilient financial performance despite a challenging operating environment. We are confident that the Egyptian market will continue to recover, and we are proud to have a strong brand and a longstanding relationship with the Egyptian consumer. We are looking forward to opening additional foreign markets and expanding Juhayna's global footprint.

Announcements / Innovation

Exclusive distribution of Gorilla through Tiba for Trade and Distribution

We are proud to share a new strategic milestone at Tiba for Trade and Distribution, the trading arm of our group. Tiba has entered into a strategic partnership with Gorilla Energy Drink, a global brand available in 29 countries with headquarters in the UAE & the U.S, to officially launch the brand in Egypt, marking the beginning of its expansion across the Egyptian market.

The selection of Tiba as Gorilla Energy Drink's strategic partner for its entry into Egypt reflects strong confidence in our market leadership, execution capabilities, and ability to build and scale innovative new categories. It also demonstrates the strength of our distribution network, our deep understanding of consumer and market demands, and our ability to drive the successful launch and growth of leading international brands.

This partnership is more than a product launch; it is a strategic milestone that strengthens Tiba's position as one of the region's leading distribution powerhouses and reinforces our role as a key platform for growth. It also represents an important step in supporting Gorilla Energy Drink's expansion across the Middle East and Asia, with Egypt serving as a strategic gateway for future growth.

1H26 Earnings call invite

Presentation:

The associated presentation and financial statements are on Juhayna Food Industries website <https://www.juhayna.com/> under the Investor Relations section.

A Telephone conference hosted by Al Ahly Pharos on Monday, August 10th, 2026, at 2:30 pm Cairo Local Time (CLT).

About Juhayna Food Industries

Juhayna Food Industries is a leading Egypt-based manufacturer specialized in the production, processing and packaging of dairy, juice, yogurt and cooking products.

Since its founding in 1983, it has secured a frontrunner position in Egypt and has expanded its presence, through exports, to international markets, a feat made possible through its firm commitment to delivering a wide range of high-quality, healthy, and safe products that have become trusted household names.

Today, with four fully operational facilities, a vast network of distribution centers serving more than 262,000 retail outlets nationwide, 6500-feddan, fully-owned dairy farm covering a sizeable portion of the company's raw milk needs, Juhayna continues to raise the benchmark for premium quality Egyptian manufactured products.
